

## Horizon Walgreens

I am sure many of you have your favorite places to shop, just as we do! We were excited to hear the news when Walgreens decided to build a store in Horizon City. Little did we know how much we would come to appreciate the excellent service and solid friendships we have made with the members of management, the pharmacy, and the staff at our neighborhood store.

Many of the employees know us as 'regular' customers, and are eager to assist us in any way! If one of us happens to go to the store alone, several staff members will ask after the other members of our family - where they are and how they are doing. We always come away from there knowing that those we encounter truly CARE about us and our family.

The two departments with which we do (what seems like) an incredible amount of business are cosmetics and the pharmacy. Not that I am so much into make-up, but sales clerks Maria and Veronica are so welcoming, and offer such heartfelt assistance, it seems I am drawn to their area just because they are so kind and helpful. Staff pharmacist and pharmacy manager, Mario, sees to our every need with excellent, accurate care of our prescriptions. He, too, possesses the ability to make us feel as if we are important to him. Paul and I both hold his professionalism and outgoing demeanor in high regard and would recommend him to anyone who requires personal, specialized care with regard to the monitoring and dispensing of their medications.

We hope you have the same experiences should you choose to make our Walgreens YOUR neighborhood store!
