Subject: list of superintendent goals

Dear Paul,

I'm actually sitting in your presentation right now! I think it's the best one I've been to all conference.

Can you please send me the list of specific superintendent goals? We are currently setting superintendent goals, but ours are more at the 30,000 foot level. I like your advice about making them specific, and public.

Specifically, I'd like to know the goals that are set for improving student achievement, other than looking at STAAR results.

Thank you!!

Nancy Humphrey
